EMPLOYEE ENGAGEMENT AND JOB SATISFACTION SURVEY

Summary Report

1. Introduction

Employee engagement and job satisfaction play an important role in an organization's success. This survey was conducted to understand employees' opinions, workplace experiences, satisfaction levels and engagement.

The survey collected feedback through Google Forms to identify areas of employee satisfaction and opportunities for workplace improvement.

2. Objectives of the Survey

- To understand employees' overall job satisfaction.
- To evaluate workplace environment and working conditions.
- To understand employee relationships and teamwork.
- To assess communication between employees and management.
- To identify areas that need improvement.
- To collect suggestions for improving employee engagement.

3. Survey Methodology

- **Survey Title:** Employee Engagement and Job Satisfaction Survey
- **Platform:** Google Forms
- **Number of Questions:** 15
- **Number of Respondents:** 5
- **Method:** Online questionnaire
- **Target Group:** Employees / working professionals

4. Data Analysis and Key Findings

The responses collected through Google Forms were analysed using the automatically generated response summaries and charts.

The analysis focused on the following areas:

1. Overall job satisfaction.
2. Workplace environment and comfort.
3. Communication with management.
4. Teamwork and employee relationships.
5. Recognition and appreciation.

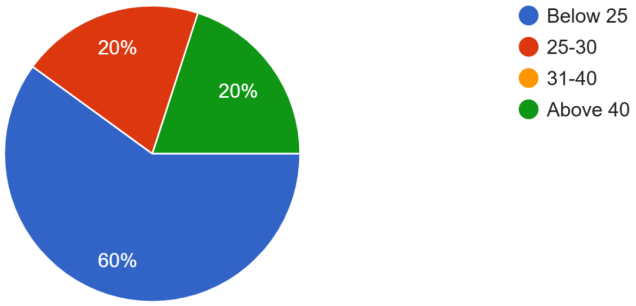

6. Career growth and development opportunities.
7. Work-life balance.

The survey results provide an overview of employee opinions and help identify positive aspects of the workplace as well as areas requiring improvement.

5. Responses chart :

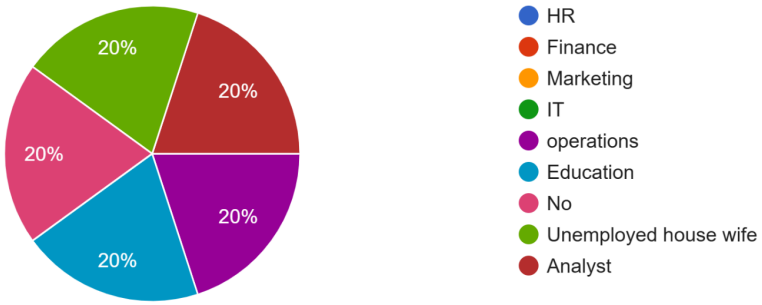

1. What is your age group?

5 responses

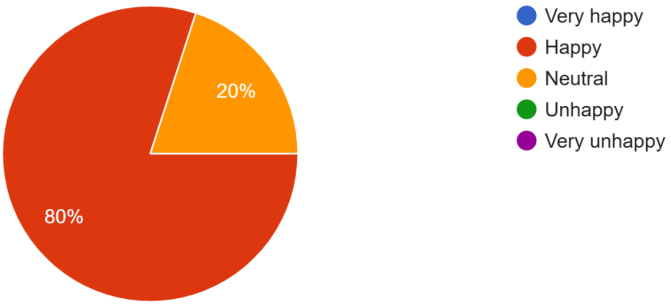

2 Which Department do you work in?

5 responses

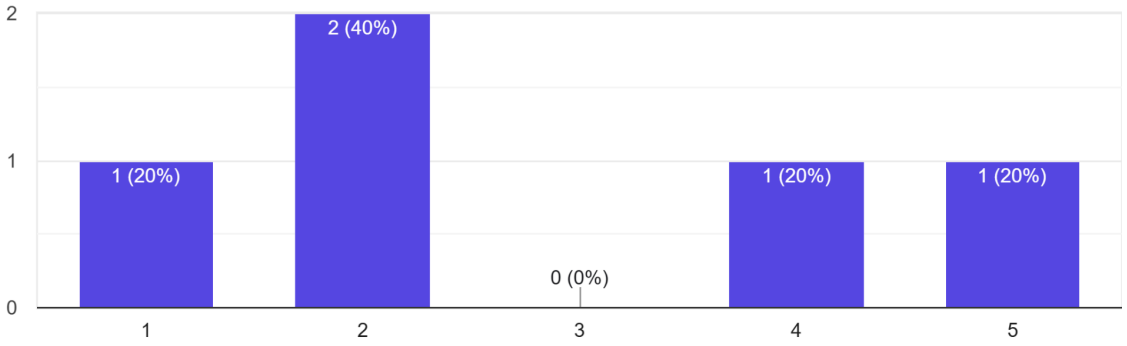

5. Are you happy with your working environment?

5 responses

11. How would you rate teamwork among your colleagues?

5 responses

6. Key Observations:

Based on the collected responses, the following areas were considered during the analysis:

- Employee satisfaction with their current work environment.
- Employee experiences with teamwork and communication.
- Opinions regarding management support.
- Opportunities for professional growth.
- Employee expectations and suggestions for improvement.

7. Recommendations

Based on the survey objectives, the following improvements are recommended:

- Encourage open communication between employees and management.
- Recognize and appreciate employee contributions.
- Provide training and career development opportunities.
- Maintain a positive and supportive work environment.
- Promote teamwork and employee participation.
- Encourage a healthy work-life balance.

8. Conclusion

The Employee Engagement and Job Satisfaction Survey provided an opportunity to understand employee opinions and workplace expectations.

The collected responses can help organizations identify employee needs, improve workplace communication and create a positive working environment.

Regular employee feedback and appropriate improvement measures can contribute to better employee engagement, satisfaction and organizational performance.
