# Task 1: Recruitment and Job Description

**OBJECTIVES:**

Prepare job descriptions for two different job roles, including job responsibilities, educational qualifications, and required skills.

## Role 1: HR Executive

**Job Title: HR Executive**

**Department:** Human Resources

**Job Summary:**

The HR Executive is responsible for supporting the organization's human resource activities, including recruitment, employee management, onboarding, attendance, and maintaining employee records.

### 1. Job Responsibilities

- Manage the recruitment and selection process.
- Prepare and post job advertisements on job portals.
- Screen resumes and shortlist suitable candidates.
- Schedule interviews and coordinate with candidates.
- Conduct employee onboarding and documentation.
- Maintain employee records and attendance.
- Support payroll and employee engagement activities.
- Handle basic employee queries and HR-related issues.

### 2. Educational Qualifications

- Bachelor's degree in Human Resource Management, Business Administration, or a related field.
- MBA in Human Resource Management is preferred.
- Freshers can apply.

### 3. Required Skills

- Good verbal and written communication.
- Knowledge of recruitment and selection.
- Basic knowledge of HR policies and procedures.
- MS Excel and MS Office skills.
- Time management and organizational skills.
- Problem-solving and interpersonal skills.
- Ability to maintain confidentiality.

# Role 2: Data Analyst

### Job Title: Data Analyst

### Department: Data Analytics

### Job Summary:

A Data Analyst collects, cleans, processes, and analyzes data to identify trends and patterns. The role involves preparing reports and dashboards to support business decision-making.

### 1. Job Responsibilities

- Collect data from different sources.
- Clean and organize datasets.
- Identify missing values and duplicate records.
- Analyze data to identify trends and patterns.
- Prepare reports and dashboards.
- Create visualizations using Power BI or other tools.
- Perform data validation and quality checks.
- Present findings and insights to management.
- Support business decisions through data analysis.

### 2. Educational Qualifications

- Bachelor's degree in Data Analytics, Computer Science, Statistics, Mathematics, Business Administration, or a related field.
- Knowledge of data analytics concepts is preferred.
- Freshers with relevant certifications or internship experience can apply.

### 3. Required Skills

- MS Excel (formulas, Pivot Tables, XLOOKUP).
- Power BI and dashboard development.
- Basic SQL knowledge.
- Python (Pandas and data analysis).
- Analytical and problem-solving skills.
- Data visualization and interpretation.
- Communication and presentation skills.
- Attention to detail.

**Comparison of Both Job Roles**

| CRITERIA | HR EXECUTIVE | DATA ANALYST |
|---|---|---|
| DEPARTMENT | HR | Data Analytics |
| MAIN FOCUS | Employee NManagement | Data Analytics |
| QUALIFICATION | BBA / MBA HR | BSc / BCA / related |
| TOOLS | MS Office, Excel | Excel, Power BI, SQL, Python |
| KEY SKILLS | Communication | Analytical thinking |
| | | |

**Conclusion:**

**Both roles are important for organizational growth. An HR Executive focuses on recruitment, employee management, and HR operations, whereas a Data Analyst focuses on collecting, analyzing, and interpreting data to support business decisions.**
